```

The image shows a screenshot of a software development environment's 'Run' console. The window title is 'Run' with a sub-tab 'Main'. The console output displays a sequence of actions for making pizzas, including preparing, baking, cutting, and packaging both NY Style Pepperoni and Chicago Deep Dish pizzas. A vertical toolbar on the left side of the console contains icons for running, stepping through code, and other debugging functions. The fifth icon, which represents running the program, is highlighted with a mouse cursor.
